## PROFILE

Hello, my name is Sungjun Lee. I am a second-year student at UBC. I always work ahead of time and do not procrastinate, so a collision with schoolwork should not occur. I am capable of heavy lifting and am quite athletic. I am a hard worker, good with people, and since I live nearby, I would be available at short notice, though I would appreciate an early notice. I hope that you consider me a useful candidate.
